

HC Series

Conical Rounders

- Different models enabling dough rounding from 100 to 1000 grams between the rounding cone and adjustable or fixed rounding tracks
- Ideal and smooth rounding through long rounding tracks
- Aluminium rounding tracks
- Channels with on/off switch blowing warm air to prevent dough sticking
- Heavy duty long lasting gearbox drive
- Easily adjustable stainless steel flour duster
- Synchronization with automatic dough processing lines
- Stainless steel side panels

OPTIONAL

- Teflon-coated rounding tracks
- Teflon-coated rounding cone
- Narrow or wide rounding tracks depending on the product weight
