

## NEW Cake Portioner

### Description

MONO Equipment's New Cake Portioner\* has been designed to reduce your slicing time and increase production.

Suitable for slicing a wide variety of soft round cakes and desserts between 152-305mm diameter and 25-178mm high, each Cake Portioner can slice between 2 to 16 slices in approximately 30 seconds.

The Cake Portioner is a fully automated machine which quickly and easily slices cakes into even slices - effortlessly - with speed and reliability.

\*Manufactured by MONO Equipment, under licence of Posh Nosh Innovations (UK) Ltd
